Submission on proposed Environmental Reporting Bill
Ministry for the Environment
PO Box 10362
Wellington 6143 New Zealand

Dear Sir/Madame,

MEASURING UP: ENVIRONMENTAL REPORTING – A DISCUSSION DOCUMENT

Thank you for the opportunity for Rozing New Zealand to comment on the above Discussion Document.

Rozing New Zealand is an Industry Association that represents roading contractors that carry out around 80% of New Zealand's road construction and maintenance work. Our members are committed to environmental sustainability and we have an environmental committee that develops environmental best practice information, tools and products for our members.

We support formal reporting on the state of this country's Environment to better understand and improve the quality of our environment. As a member of the Engineering Leadership Forum we support IPENZ's submission on the discussion document.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Chris Olsen', with a long horizontal flourish extending to the right.
